Kids Resort

Business overview

At Kids Resort Early Learning Centre we aim to provide a nurturing environment where each child feels a sense of being, belonging and becoming.

Where they learned about Happy HR?

A colleague recommended me to Happy HR as they had had good success with the product. I'm glad I was referred to Happy HR.

What were the challenges of your HR before getting Happy HR?

Having everything on file in one place was hard and I wanted to move everything to one cloud-based system. I wanted to have a HR partner that could provide up to date contracts, HR policies in line with the Fair Work Act and help ensure that we stayed compliant always. Keeping up to date with recruitment, inductions, performance management was also challenging.

How do you find using Happy HR?

I feel that the Happy HR software and support is fantastic, the team is available anytime we need them. The features are great and enable us to have a comprehensive framework around our HR. All the documents are tailored to our industry which is also a nice feature of the service.

Can you imagine life without Happy HR?

I would like the fact that we can go at our own pace, and it really is a great system that covers everything and more. The support is incredible knowing we can call a qualified HR professional to assist is wonderful.
